

21 May 2018

To the Property Owner/Occupier

RE: BRIGHTON ENVIRONMENTAL ASSESSMENT WORK – NOTIFICATION OF ADDITIONAL INVESTIGATIONS

Further to the environmental assessment work undertaken in the Brighton area by the South Australian Environment Protection Authority (SA EPA) in February-March 2018¹, I am writing to inform you that Fyfe Pty Ltd (Fyfe) has been commissioned to undertake additional soil vapour and groundwater investigations.

This work has been prompted by the identification of chemicals, primarily tetrachloroethene (PCE), in soil vapour that are considered likely to be associated with underlying groundwater contamination and could potentially enter indoor air spaces.

This work will commence on 25 May 2018 and will involve the drilling and installation of a series of temporary/permanent soil vapour bores and groundwater monitoring wells in public nature strip areas. The results of the work are due to be reported in early August 2018, at which time further communication will be provided.

Mr Steven Kirsanovs, a Site Contamination Auditor accredited under Division 4 of Part 10A of the *Environment Protection Act 1993*, has been appointed to oversee the work undertaken by Fyfe, which will be performed in accordance with a Voluntary Site Contamination Assessment Order (VSCAP) agreed between the identified liable party and the SA EPA.

If drilling is proposed to be undertaken in the immediate vicinity of your property, you will receive notification at least two days prior via a letter-box drop.

Should you require any further clarification on the information provided in this letter, please do not hesitate to call the undersigned on (08) 8201 9794 or 0408 805 264.

Should you wish to discuss any aspect of this project with the SA EPA, please phone (08) 8124 4216 or send an email to engage.epa@sa.gov.au.

Yours faithfully

Marc Andrews
Manager – Environment
