

# Employee value proposition

When smart people work on intriguing problems, and they enjoy coming to work each day, they accomplish great things together.

## Our diversity of roles include:

<b>Operations</b>	compliance and regulation; investigations and responding to environmental incidents; circular economy and waste regulation.
<b>People, Strategy and Performance</b>	strategic communication and engagement; human resources and workforce capability; corporate performance and strategy; executive functions and ministerial liaison; work health safety and risk management.
<b>Policy, Assessment and Finance</b>	finance and business services; policy and legislation; site contamination and urban renewal; planning and impact assessment.
<b>Science and Systems</b>	environmental science; mining and radiation advice; digital systems and information technology; and project management.

You can expect to make a difference through your work, to have a direct impact on the achievement of a very meaningful mission to help protect our environment.

You'll feel the energy of genuineness, collaboration, and passion from employees when you walk through our door, on site in industry be it on land or sea or working within our community.

Picture yourself working in a role that is surrounded by teams and people who challenge you, support you, and inspire you to be extraordinary and, most importantly, make a difference for future generations by helping protect our most precious resource, the environment.

*Are you ready to make a difference?*
